Dear Oponent,

I am taking the liberty to contact you on behalf of the Czech Health Research Council – established by Ministry of Health of the Czech Republic in order to ensure qualified evaluation and administrative processing of project proposals in applied medical research and development - with the polite request for your participation in our review process.

Considering your experience and outstanding scientific contribution, we would be honoured if you would accept the task to review the project proposal No. NV18--02-00001 submitted by Zlén PO2 and entitled: Photo trap caught for the first time by a nursing female jackal. It is the first evidence that breeds are breeding in the Czech Republic as well

Please find the abstract of the project proposal and possible, pertinent co-applicant at the end of this e-mail.

Please note that the evaluation of project proposals is processed electronically. In order to let us know your decision, please select the corresponding option at the address: <https://ereg.ksrzis.cz/tp/cms/ISVP/>. The final deadline is 22. 12. 2017.

In case that you would like to accept the review please do so as soon as possible after receiving this email at least within 7 days in the system ISVP <https://ereg.ksrzis.cz/tp/cms/ISVP/>, using login and password stated below. If it is not possible for you to accept in 7 days and you still want to complete the review please contact us at review@azvcr.cz.

Your username: test
Your password: xybx
(We recommend you to change your password after the first login.) If you would experience any trouble while logging in or with anything else please contact us also at review@azvcr.cz.

In case the project does not fit within your area of expertise, we would be grateful for any recommendations on experts with relevant specialization.

The participation in the review process is remunerated by a symbolic fee in the amount of 2500 CZK, which is equivalent to approximately 90 EUR or 125 USD a completed review. The honorarium will be paid upon request and after completing and finalizing the review and providing us with all the required data necessary for successful payment processing.

Please note that by accepting the review and accessing the <https://ereg.ksrzis.cz/tp/cms/ISVP/>, you accept to be bound by strict confidentiality about the content of the project and information regarding the review process.

Please do not hesitate to contact us at review@azvcr.cz if you require any further information or clarification.

We thank you very much in advance for considering your participating in the review process and we sincerely hope that you will accept our invitation.

Yours sincerely,

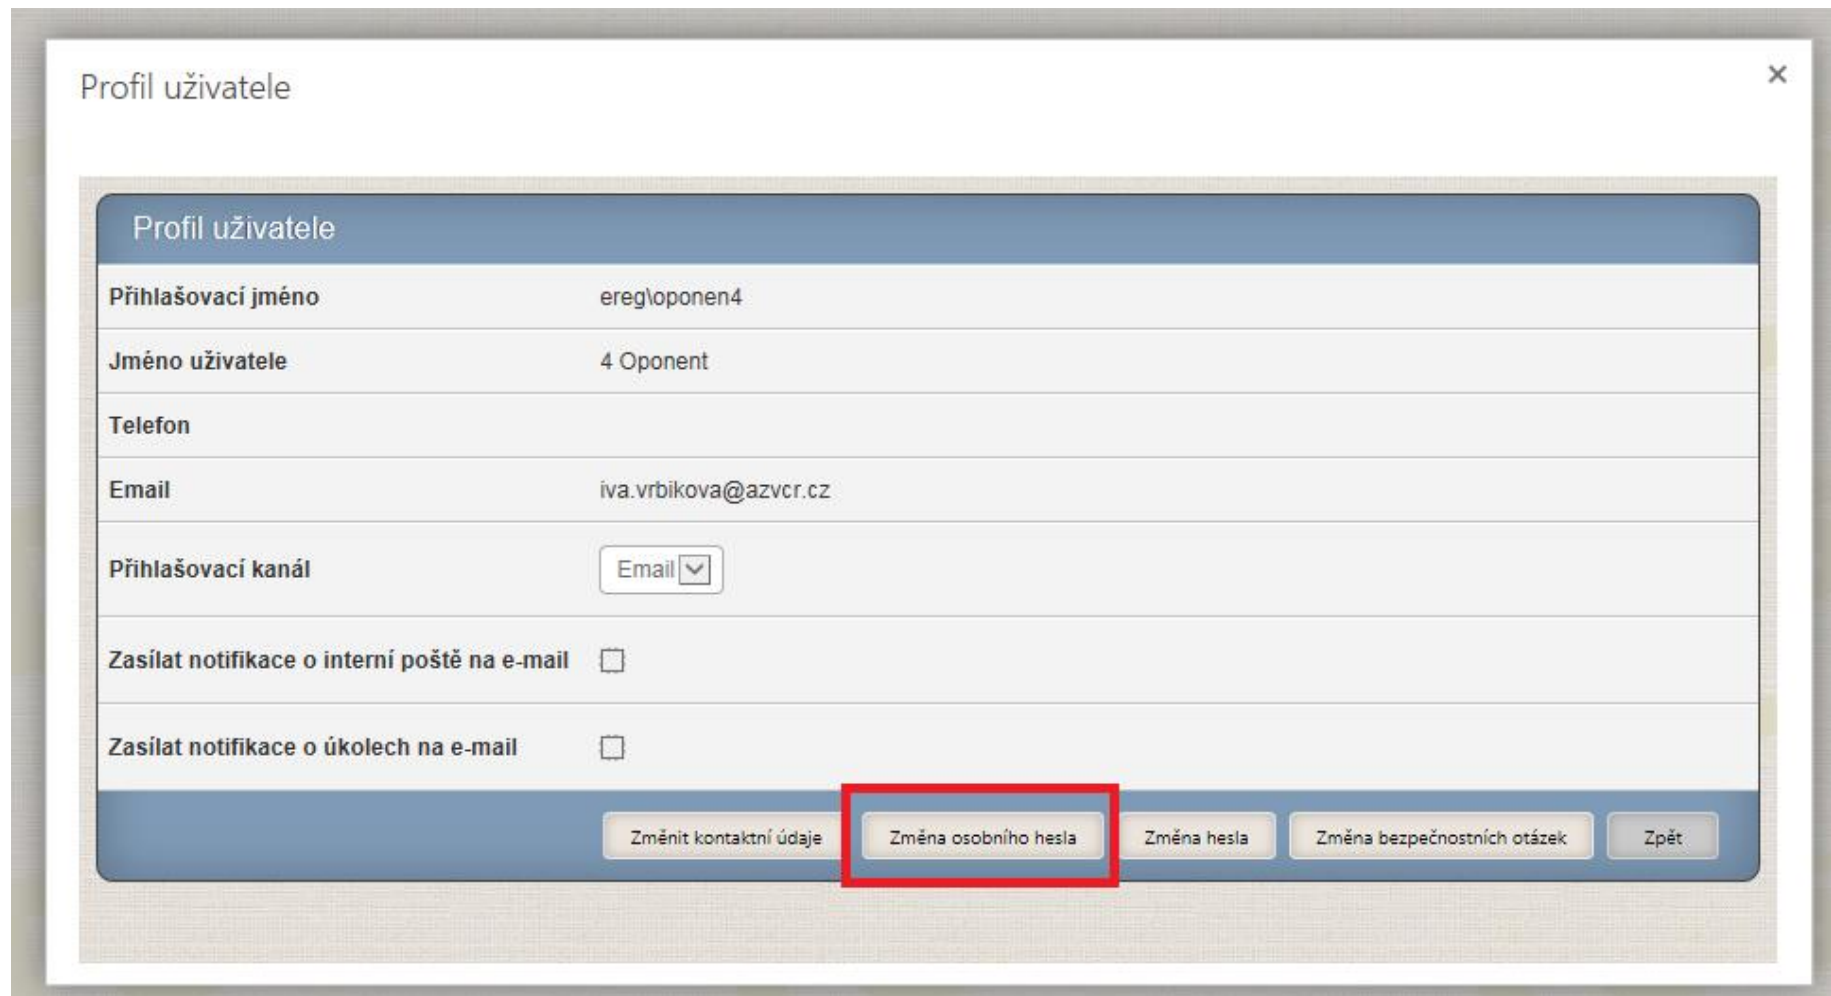

Miroslav Ryska
President of the Czech Health Research Council

ABSTRACT:
For the first time in the Czech Republic, it was possible to capture the proof of the propagation of the jackals. Photopast captured a nursing female in the reservation of teeth and wild horses in the former military area. The jackal specialists in this locality have been watching for over a year. However, it has now proved that the dog bears on the Czech territory also multiplied. In the Czech Republic, there has been one uninterrupted occurrence of a female jackal in the past, but in this case it is an observation irreversibly documented by photographs.

Abstract

For the first time in the Czech Republic, it was possible to capture the proof of the propagation of the jackals. Photopast captured a nursing female in the reservation of teeth and wild horses in the former military area. The jackal specialists in this locality have been watching for over a year. However, it has now proved that the dog bears on the Czech territory also multiplied. In the Czech Republic, there has been one uninterrupted occurrence of a female jackal in the past, but in this case it is an observation irreversibly documented by photographs.
